BI & Visualization	Tableau, Power BI, Looker, Excel (Pivot Tables, Power Query), Ad-hoc Reporting
Platforms & Cloud	Snowflake, BigQuery, Redshift, DynamoDB, Oracle, MySQL, AWS (S3, Glue), GCP, Azure
Pipelines	dbt, Airflow, Databricks, Jenkins (CI/CD), Git, Data Governance, Data Quality, FP&A
Risk & Compliance	Fraud Detection, AML, Transaction Monitoring, Risk Management, HIPAA, Agile/Scrum
Tools & AI	Salesforce, SAP, ServiceNow, JIRA, Confluence, GPT-4, RAG & Graph-RAG, LangChain, NLP

EXPERIENCE

Data Analyst II Aug 2024 – Present
Mark Infotech Inc *Remote (DMV Area)*

- Architected SQL/Python fraud detection and transaction monitoring pipelines, automating anomaly flagging across financial transactions and cutting manual review by **40%** while reducing risk exposure by **22%**.
- Spearheaded **25+** Tableau dashboards unifying CRM and warehouse metrics, boosting reporting efficiency by **30%** and enabling real-time performance management for executive stakeholders.
- Led strategic planning with cross-functional teams to define KPIs, conduct financial analysis, and deploy AWS-enabled capacity planning workflows, raising data accuracy by **28%** and cutting turnaround by **45%**.

Senior Business Analyst May 2017 – Jul 2022
Kaiser Permanente *(via Accenture)* *Hyderabad, India*

- Owned delivery of **HIPAA-compliant** clinical and member analytics dashboards in Tableau and Power BI, applying regression and statistical modeling to achieve **90%** forecast accuracy and boosting feature adoption by **18%** through A/B testing.
- Drove process improvement and Agile sprint delivery, authoring **30+** user stories with UAT criteria and triaging **300+** ServiceNow change requests, improving SLA compliance by **20%**.
- Developed FP&A-aligned data models supporting five business units, improving audit traceability and data governance efficiency by **35%**.
- Transformed release ops via Jenkins CI/CD, achieving **99%** on-time deployment across **50+** releases and improving cycle efficiency by **25%**.
- Performed variance analysis and ad-hoc reporting across member and claims datasets, surfacing population health trends that guided clinical decision-making and reduced reporting turnaround by **30%**.

Data Analyst Intern Jan 2016 – Jan 2017
HCL Technologies *Hyderabad, India*

- Built Salesforce CRM dashboards and ad-hoc SQL reports for marketing and operations, reducing manual reporting time by **30%** and improving financial analysis accuracy.
- Migrated and cleansed **100K+** legacy records into Salesforce, improving data quality, consistency, and reporting reliability.

PROJECTS

- **LLM Medical Knowledge Graph:** Real-time AI clinical platform using GPT-4/Mistral with RAG/Graph-RAG (ChromaDB, Neo4j); applied statistical modeling to improve decision accuracy by **30%**. [GraphRAG](#)
- **Cyberbullying Text Classifier:** Multi-model NLP pipeline (BERT, GRU, LSTM) achieving **97%** accuracy; enhanced sentiment visualization with Word2Vec embeddings. [Sentiment Analysis](#)
- **SF Fire Dept Analytics:** Processed **6M+** emergency records via AWS and Tableau; applied capacity planning to improve response times by **20%**. [SF Fire Analytics](#)
